Rimov fracas comes to head

ALBANY — The series of events that led to the request of the Albany City Council to Dr. Stephen Kalmar and his contractor, Ralph Willis, to stop construction at 525-535 Jackson Street have been in the development process for some time.

Kalmar, a large property owner in Albany, has been developing lots on Albany Hill for some time and has incurred the wrath of Leon Rimov by, as Rimov puts it, "his shoddy practices."

The latest fracas came about over the incident Friday, December 8, when a soil testing boring machine tipped over and tore down a section of Rimov's fence and did some "possible structural damage" to the retaining wall of Rimov's residence, 555 Jackson Street.

As a result of Rimov's appearance at the City Council meeting December 11, a notice was posted on Kalmar's property, 525-535 Jackson Street that reads as follows: "Ralph Willis. You are requested to cease construction immediately 12-12-78. This delay has been ordered by City Council until work session can be held."

"Please contact me for further information." Date 12-12-78. Signed by Robert L. Kimball, Inspector of Building.

A survey of the property shows that there has been no further activity. Some of the trees have been removed, some of the limbs have been trimmed and some test holes have been dug. There is some construction material stacked on the sidewalk on the opposite side of the street from the building site.

At his Council appearance, and prior, Rimov stated his intentions of suing just about everyone connected with the project at 525-535 Jackson Street. He stated, in the open Council meeting, his intention to sue the Albany Building Department, the Council, Kalmar, Willis and the testing outfit that damaged his fence and wall.

Rimov maintains he doesn't want to hurt the City's reputation and doesn't want to name the City Council as part of his suits, but he said he will if he has to do so to protect the property owners of the Hill. He said he still doesn't know whether he will file a class action suit, or will sue as an individual.

Subsequent developments will determine the course Rimov will take, he said.

Details of Council death of Spires told FIA reps

ALBANY — Word has been received revealing more of the details of the death of Frank Spires on December 1 in Sun City, Arizona.

According to Mrs. Irene MacWilliams, secretary of the Albany Chamber of Commerce, Mr. Spires, former Berkeley Postmaster, died suddenly and no funeral services were held, at his request.

Born in Pennsylvania, Mr. Spires was raised in Richmond, California, and leaves two brothers and two sisters, plus nieces and nephews in that city. Survived by his wife, Betty, who is still a resident of Sun City, the couple had traveled extensively prior to his death.

Several years after his graduation from Richmond High School, Mr. Spires moved to Arizona where he met and married Betty Thatcher. In about 1935 he transferred to the Berkeley postoffice and moved to Albany where he lived until his retirement in 1963.

Mr. Spires was Past Master of Albany masonic Lodge 686; Past Exalted Ruler of the Berkeley Elks, No. 1002; a member of the Berkeley Lions Club and a former member of the ALC.

ALBANY — The city council has voted 4-1 to continue a moratorium on construction at an Albany hill apartment complex until a state engineer can give the city a report on disputed soil and engineering studies.

Councilwoman Joyce Jackson, who cast the only dissenting vote at the Monday evening meeting, then charged Mayor Lewis Howell with trying to use the dispute, along with other allegations, to fire City Administrator William Haden and Public Works Director Robert Guletz.

The council had voted unanimously last week to halt construction on a six-unit apartment building at 545 Jackson St. after hearing complaints from architect-planner Leon Rimov, who accused the city's building and inspection department of bungling soil and engineering reports on the property.

The council decided Monday that it wanted an impartial opinion to determine whether construction should continue, and to check reports by Guletz's department and the builder for accuracy.

Howell denied Jackson's allegations, saying that there had been no talk of staff firings in the two executive personnel sessions held since Rimov made his accusations Dec. 11.

Rimov told the council last week that he learned of the alleged improper soil inspections when a tractor overturned at the apartment site and damaged his fence.

The accident sent Rimov to inspect city records, he said. He charged that the soil studies by city inspectors did not match the plans for the apartment building, and that the city's soil study reports were not signed or dated.

Both Haden and Guletz declined to comment on whether they might be fired as Jackson had charged. However, Guletz said he believed it was not necessary for another party to check the city's plans and inspections.

Scouts will pick up Christmas tree

ALBANY — The Boy Scouts and Cub Scouts of Albany have banded together to again pickup Christmas trees after the holidays, it has been revealed.

According to information, trees may be left in the parking strip in front of homes for pickup on January 6. If there is no parking strip, home owners and residents are asked to place the tree in front of the house.

The trees will be gathered and disposed of, it was said, and a donation will be accepted for the services. Money raised is divided equally.

Last show of dogs at hospital Teacher's Building permits up scheduled last month

ALBANY — Mrs. William (Mary) Culley of Albany has decided that the 15th annual Christmas Day show by her performing poodles at Children's Hospital Medical Center in Oakland will be their last.

She will begin taking Love Bug, Sweet Stuff, Yum Yum, Showoff and Tootsie Pop through the units of the hospital at 9:30 a.m.

In 1963, when Mrs. Culley first came to Children's on Christmas Day, she had but one dog, Cozy. Cozy became the mainstay as other poodles were added and the show expanded. They had costumes, music and props, such as a baby stroller, barrel, scooter and musical instruments, and appeared hundreds of times in the Bay Area. Cozy died in 1975.

A few years ago, the poodles became a traditional entertainment at the Children's Heart Party in February, when those who have undergone open heart surgery at CHMC are feted at a Valentine party.

Hospitalized children frequently fall in love with one of the friendly little poodles. Mrs. Culley promises to bring the dog back to visit the child and has always kept her promise.

Mrs. Culley, who has two healthy sons and an eight-month-old granddaughter, becomes emotionally involved with seriously ill children, but they see only her smiles and not the tears as she leaves their rooms.

"I have loved our association with Children's and think so often of the children we have met through the years," Mrs. Culley said, "but it's time to retire the poodles and say goodbye after the Christmas visit."

CHP can search cadaver

ALBANY — All California Highway Patrol officers have been informed about an amendment to the Uniform Anatomical Gift Act, effective Jan. 1, 1979, said Commissioner Glen Craig.

The Act provides that peace officers may search a deceased person or property surrounding the deceased for the purpose of locating a Uniform Anatomical Donor Card.

Death of the person must be the result of a traffic accident for the new law to apply to CHP officers.

The California Vehicle Code requires the Department of Motor Vehicles to provide stickers which may be affixed to the back of driver licenses and identification cards by which licenses may indicate their willingness and intent to make an anatomical gift upon death.

Craig said procedures have been established for CHP officers to notify the coroner immediately when a deceased traffic accident victim is identified as an anatomical donor.

ALBANY — What can teachers do if they can't find a teaching job? "In the last two years over 40,000 California teachers have lost their jobs because of declining enrollments and Prop. 13 cutbacks," says Dan Peck, President of Educational Consultants Inc. and Professor of Education at San Francisco State University.

To help teachers and other school personnel find satisfying work in new fields, San Francisco State University is offering a series of three weekend workshops entitled "Assessing Your Work Skills and Their Salability," on Jan. 12 and 13, Jan. 26 and 27 and Feb. 9 and 10, 1979.

The workshops are divided into three main areas: Assessing the Best of Your Marketable Skills; Exploring the Total Market for Your Skills; and Developing the Techniques to Present Yourself Most Effectively.

"There should be no reason for teachers and other professionally trained personnel to accept underemployment. There should be every reason for them to make the most of the opportunity for a career change that's positive in every way," says Dan Peck.

The workshops cost \$150 and offer three units of credit. For further information and to enroll in the course call the Office of Continuing Education at San Francisco State University at (415) 469-1373.

State park passes as Christmas gift

ALBANY — Three bargain offers for 1979 are now available to frequent users of California state parks, beaches, and recreation areas. Many people use these specials as Christmas gifts.

An annual day-use permit for \$15 can be used in place of the charge of \$1.50 per day per vehicle. An annual combination day-use and boat-launching permit for \$30 can be used instead of the daily \$1.50 vehicle parking fee and the \$1.50 boat launching fee at all state park units that offer boating.

A 1979 off-season camping ticket book for \$20 contains 10 tickets each good for one campsite for one night at any state park campground during the "off-season" (winter at many state park units and summer at some desert parks). These tickets may be used instead of the regular charge of \$2 to \$5 a night. They cannot be used, however, during the regular camping season or for any campsite reservations.

The permits and ticket book are good for the rest of 1978 and all of 1979.

Any of these are available at most state park offices and at the reservation office on the first floor of the Resources Building, 9th & O Streets, Sacramento. They may also be ordered by mail by sending a check or money order to Department of Parks and Recreation, P. O. Box 2390, Sacramento, California 95811.

ALBANY — Although there were five more building permits issued in November, 1978 than in November, 1977, the dollar amount was a huge gain, according to the report of Robert Guletz, Albany's Director of Public Works.

The total permits, including those now under dispute and in limbo, numbered 33 for last month with a value of \$539,827 as compared with the 28 issued in the same month in 1977 for an amount of \$74,916.

Breaking down the permits, two were issued for new residential construction with a total worth of \$301,500 according to Guletz's report. The addition to the Senior Citizen Center on Masonic will account for an expenditure of \$182,505 while one residential addition is valued at \$22,000. Residents altering their homes accounted for 17 permits at a total cost of \$21,542.

Twelve other permits of various natures accounted for a total of \$12,280 to bring the November total to the \$539,827 figure.

Comparing the first eleven months of 1978 with 1977, however, shows a decline in dollar amount from \$3,729,703 for 1977 to \$2,419,083 for 1978, a loss of \$1,310,620, the report reveals. There was a total gain of six units in the housing picture in Albany, the report showed, with a total as of the end of November of 3,920 single-family units and 2,628 apartments and duplexes.

Fees collected for inspections during the month of November totaled \$2,455.50, according to Guletz's report.

Workshop slated on Jewish writing

ALBANY — Karen Iris Bogen is to start a workshop for those interested in writing on Jewish subjects, it has been announced.

The workshop, dubbed "Creative Writing on Jewish Themes," is to be taught at Lehrhaus Judaica, 2753 Bancroft Way in Berkeley, and will run from January 17 through March 7. Tuition is \$12 for students and \$25 for non-students, it was said.

Ms. Bogen is a practicing poet/playwright with a Ph.D. in theology and literature. Further information may be obtained by calling Fred Rosenbaum, Hillel Society, 845-7793 or Ms. Bogen, 527-3695.

No council meet

ALBANY — Because of the holidays, the Albany City Council has cancelled its regular meeting on December 25, according to Patricia Dempster, City Clerk. The next meeting of the Council will be January 2, 1979, she announced.

The Planning Zoning Commission also has cancelled its regular meeting and announced its next meeting will be held Tuesday, January 9.

Martha Hood states City holds illegal title to hill land

ALBANY — The regular meeting of the Albany City Council Monday night ended on a very unhappy note, not in keeping with Mayor Lewis M. Howell's wish of a Merry Christmas and Happy New Year to those in the audience.

First Martha Hood demanded the City of Albany relinquish that section of land deemed to it by Interstate General on Albany Hill for a park. She stated the land included the area used for the Easter Cross and that is a violation of the Constitution and therefore, the land should be given back to the developers and then some other means of conveyance made as she said "it is against the Constitution for a city to hold title to land used for a religious purpose."

No action was taken on her demand, but it is sure to come up at another meeting.

After Mayor Howell had made his wishes for the holidays, Dario Meniketti got up from his seat in the audience and demanded the whole City Council resign! And that met with silence.

The meeting also brought out Meniketti's remarks he "had no faith in this council. You should all either resign or be recalled."

Dr. Stephen Kalmar, who had his cease and desist order on his property at 525-535 Jackson St. held over to have the opinion of outside consultants on soil and engineering check his plans, also asked for, and received, a delay in his petition to the council on his appeal from Planning and Zoning on his revised plans for 515-517-519 Jackson St. The appeal is to be heard on Jan. 8, the council decided.

There were no objections to the issuance of an on sale beer and wine license to the eating place at 755 San Pablo and the council agreed to allow the license to go into effect.

The public hearing on Gateview residents on their parking problems brought out about 20 residents of the

Careful driving urged

ALBANY — Richard V. Patton, president of the more than one and three-quarter million member California State Automobile Association, urges party givers to show concern for their guests' safety by being "first a friend, then a host," and exercise restraint when serving alcohol.

Family reunions, office parties, plus an assortment of convivial gatherings, all "in the spirit of the season," frequently involve the consumption of alcohol. When guests head for their cars, having consumed too much "cheer," they not only endanger themselves, but their passengers and those with whom they share the road.

According to last year's statistics, 4,942 persons were killed and 284,079 injured on California's streets and highways. Nearly half of these fatal and injury accidents involved alcohol consumption.

To help lower the accident rate, the CAAA executive offers some tips for holiday entertaining:

That SIREN You Heard

Sunday another one of the San Francisco Examiner's trucks developed a hole in the gas tank, calling the Albany Fire department out. The men responded to the 900 block of San Pablo and put a patch on the tank, washed down the street and returned to the station, all in a matter of minutes.

An automobile accident between the cars of Joe Carey, 24, 2712 Groom, Richmond, and James Hollingsworth, 68, 1117 Cowper, Berkeley, on Highway 180 at the Gilman street overpass brought the Albany Fire department ambulance out. The crew took both men to Herrick Memorial Hospital in Berkeley for further treatment after first aid at the scene of the accident.

The Albany Fire department received a telephone call that a Volkswagen was on fire "four or five blocks" up Marin. Upon arrival, the crew found the car was on fire, but it was in Berkeley and the Berkeley Fire department had responded to the call.

Two men, Art Pacheco and Steve Dibine, were taken to Herrick Memorial Hospital Saturday following an accident between their cars on the west frontage road between University

and Gilman.

Edith Kearney, 82, who lives on Washington, fell Friday at her home and received a possible dislocation of the right hip, according to the report on file at the Albany Fire department. The ambulance took the woman to Herrick Memorial Hospital for treatment.

The car of John Bacque, 1062 Kains, caught fire in the fuel line, the report on file in the Albany Fire Department states, Friday, while it was in front of 1030 Kains. Damage was estimated at \$50.

Jay Brown, 15, 927 Talbot, dislocated his knee cap while wrestling at Albany High School, according to the Fire department report. When the ambulance arrived at the school, the knee cap was taken in place, but he was taken to Herrick for further treatment by the ambulance crew.

A fire in a compost pile at 623 Stannage, last Thursday, set fire to a fence in the rear yard of the residence. Mrs. Sinibaldi, who lives in the area, called the fire department and they extinguished the fire and raked the compost pile apart to prevent further spontaneous combustion, the report stated.

The Service of Lessons and Carols will begin at 10:30 p.m. The Christmas Candlelight Communion will begin at 11 p.m. Father Debenham's sermon theme will be "The Light Shining In The Darkness."

Christmas Day Communion and sermon will be at 10 a.m.

UNITED METHODIST CHURCH

On Sunday December 24, services will be held at 11 a.m. at 980 Stannage, Albany. It will be a Christmas Sunday and the Reverend Peter Ahn will use as his sermon topic, "Christmas: The Wonder of It!" Luke 2:1-20.

The Christmas Eve Candlelight Service will be held at 7:30 p.m.

Sunday School will be held at 10 a.m. Nursery care will be provided for small children during the morning service.

Choir practice will be held on Thursday at 7:30 p.m.

WESTBRAE BIBLE CHURCH

The Westbrae Bible Church wants to thank Christmas Eve in terms of biblical and spiritual by presenting the message, "The Night Before Christmas" and Luke 2:1-20.

Christmas Eve services will be held at 1343 Hopkins Street, Berkeley.

The Fire Department ambulance took Lovell Coverson, 13, 942 Camelia, Berkeley, to Herrick after he sprained his ankle severely while playing football at University Village last Thursday.

dishes rather than an elaborate bar. Midway through the party, begin serving tempting selections of filling food. Contrary to popular belief, these do little or nothing toward the restoration of sobriety, but they do make fine substitutes for the unfortunate and often lethal tradition of "one for the road."

Should a guest over-indulge, make arrangements to have him or her taken home by a sober friend. Alternative solutions might be a taxi, or an offer from the host to put the inebriate up for the night. Under no circumstances should the individual be allowed to drive. "This year," says Patton, "be first a friend, then a host. It's a good way to keep friends longer."

HOMETOWN NEWS

Two Albany students, Daniel Pagter and Chadwick Quan, graduated from Los Medanos College with degrees in Administration of Justice, according to a bulletin from the Pittsburg based college.

The local men have completed a 13 week course of eight hours per day that qualifies them for basic certification as required of police officers, the announcement said.

Spec. 5 Robin D. Dalton, son of Mrs. Ellen V. Dalton of Carmel Avenue, has been assigned as a food specialist with the Sixth Army in Mannheim, Germany, according to an announcement from the U.S. Army. A graduate of Albany High School, Class of 1972, he is married and his wife, Sandar, lives in Emilly, Minn. He entered the Army in 1972 after completion of his local schooling.

The new roll form division of Curoco Steel of Albany, just completed in Richmond, will be double its former capacity, according to owner and general manager Neil Prunty.

Three roll form lines that formerly were at the local plant have been moved to the new eight acre site in Richmond, it was announced.

The general offices, fabrication and engineering remain here in Albany, it was said.

Illegal Title

(Continued from Page 1) Haden showed on the blackboard that when Gateview reaches 2,000 units, the parking will amount to over the set ratio of one and one-half to one. He was roundly applauded when one of the Gateview residents said he was better than the attorneys for the terrace.

On the question of parking a stall in the proposed garage for \$8,000, Strand pointed out the economics of the problem, stating it would be an additional \$125 per month to park a car as against the norm of some residents who are offering for their stalls in the garage for \$40 a month at the present time. He said he would be paying one percent on his money for 10 years if he were to purchase one of the proposed stalls.

Haden then read that part of the letter from the developer where he agreed to provide one and one-half parking in the first phase of the second phase of construction.

Haden also emphasized that the buying of stalls was voluntary, but Strand again said parking on weekends extended to the question of Gateview and whether or not it applies is a most complicated legal question. He said no solution could be made short of litigation and there has been no decision on that.

When Strand asked direct questions as to the availability of parking, City Ad-

Police Blotter

Scott Severson, 26, 183 W. MacArthur in Oakland, was stopped for a minor traffic violation and found to have an outstanding warrant from the Berkeley Municipal Court. He was escorted, the report stated, to the Albany police station and held by the Berkeley police.

A warrant has been requested for the arrest of Alvaro Mandorio, 744 Contra Costa, Berkeley, as the result of a hit and run automobile accident Sunday, according to the police report. Mandorio is said to have hit the car of Chris P. Carras, 1271 Portland, in front of his home on Portland and kept going. Officers from the Albany Police Department found the car at Tacoma and Washington where it had been pushed. Mandorio would not talk to them regarding the accident. Hence the request for the warrant, the report said.

The home of Marjorie Williams, 1002 Ninth St., Bldg. 4, was entered through an unlocked window and a burglar and an AM/FM record player taken. A suspect was seen in the neighborhood, the police report said. There was no monetary value placed on the lost items, the report showed.

Julia Zundeleich, 401 Cannage, lost her Huffy 200 bicycle last Saturday when she left it unlocked in her yard. The bike was valued at \$49.88, the police report said.

Joanne Hefner, 4136B Avon Court, Fremont, was cited under Section 22106 of the Vehicle Code as the result of an accident between her car and one driven by Harold Frank, 246 San Carlos, El Cerrito, at Santa Fe and Thousand Oaks. Ms. Hefner also complained of injuries, but said she would sue her own doctor.

The culprit who took the garbage can from Joy Smith at Toy Go Round, 1160 Solano Ave., had a change of heart. She reported her new, large metal can is back where it belongs and the small, beat up plastic can has disappeared, according to the police report.

Katherine Seney, 2337 Ward, Berkeley, had a little rough luck with her driving Thursday, according to the police report. She came around the corner and hit the parked car of Arthur Reinbrach, 903 Ventura. She smashed up her car and that of Reinbrach, the report said. Ms. Seney was cited for speeding, the report showed.

As a result of an accident at Brighton and Evelyn last Thursday, Nora Raggio was given a citation for violation of 21802A V.C. Her car collided with one driven by Eva Ennis, 227 Kensington.

When Albany police stopped Kenneth Williams for a minor traffic violation, they found he had outstanding warrants from San Mateo and from the Berkeley-Albany Municipal Court. The man, who resides at 935 Addison in Berkeley, was released on bail.

Last Wednesday, Albany High School was the scene of a minor pitched battle, according to the police reports. A juvenile was challenged by three students in the hall of the school and assaulted, the report said. He ran into a classroom for protection and there William George, 1207 Union St., and his wife, Judith, attempted to help him. George, in turn, was set upon by one of the three aggressors and his wife was restrained from calling authorities by the remaining youngster. The first victim refused to identify the three to police officers. An investigation of the incident continues, the police report said.

John Enos, 1075 Kains, lost some \$325 in merchandise when a burglar entered his home through a forced bedroom window. The man lost a television set and cash in the burglary during the daytime hours last week, according to the police report.

James Morrison, 810 Curtis, was arrested at his home last week on outstanding warrants from the Berkeley-Albany Municipal Court. He was released after posting bail, the police report said. He also had warrants against him from San Rafael and Monterey. Total bail was \$4,119, the report showed.

A Scott Engraving machine was stolen from the company by the same name last week. The plant, at 1057 Eastshore Highway, set the value of the machine at \$70.

The car of Paula Kallenberger, 1619 Walnut, Berkeley, was damaged when it was struck by the car of Charles Kobb, 830 Key Route, last week. There were no injuries as a result of the accident.

New Year's Eve program at church

KENSINGTON — The Berkeley Area Interfaith Council will present the Temple of Wings Dancers New Year's Eve at the First Unitarian Church, 1 Lawson Road.

The dancers, under the direction of Oleoel, will present two dances from Bach's Christmas Oratorio as well as "Circle Dance of Four Directions" and "Las Malinches."

The program, to start at 9 p.m., will be open to the public, it was announced.

By SYLVIA TEDESCO

Dear Friends — her it is almost Christmas and we have only a couple of gifts under our tree; we have been so busy here. We would like to make a suggestion for last-minute gifts for loved ones: why not send your favorite someone a trip or a round-trip SuperSaver ticket from their home city? We can figure the rough estimate of price and reservations can be made later to fit the giftee's convenience. This makes a lot of sense when you think how often you've sent someone money for a ticket that ended up being something bought and sent to you instead, or went into something else.

Business people might consider an incentive gift for a particularly good staff person or maybe do like a local dentist did recently through us — at Thanksgiving he took his entire staff with him to Hawaii for a week. They helped with some of the cost, and the rest was a year-end bonus from him. They stayed at nice condominiums on two islands and had a chance to relax and get to know each other outside the office for a change.

Speaking of Hawaii, it isn't too early to book for Easter vacation. We've been calling and struggling to find hotels and condominiums January and February. Everyone wants to get warm and smell the gentle scent of plumeria blossoms on the night air. We have a Hawaii package

TRAVEL

Away We Go

to suit every taste and convenience — if you want to hike in Kauai, we suggest a very good book by Robert Smith of Wilderness Press. In fact, he has several books about hiking in the islands. You'll need park permits and so on, so check with us if you're planning to go. You can take scuba lessons in Lahaina, rent campers if you don't want hotels. There are still lots of quiet places in the islands.

We can find you good places for golf and tennis, too. For night life, the main place is still Waikiki.

We should also mention here that our specialty is sending clients trekking in Nepal and South America. We sell Mountain Travel packages and send individual clients who want their own special itineraries through our Kathmandu tour agent, Sherpa Cooperative. We would like to an-

nounce also that our South America Specialists — South American Wilderness Adventures have just come out with their new brochure and it is a beauty. You can come into the office and pick one up or write and we'll have them mail you one.

So there are just a few ideas for the new year of travelling. Just give us a call or come by for a visit and we'll be happy to set up the right vacation or business trip for you in 1979! Happy travelling, SYLVIA

Diablo knocks off Full House in league play

By PHIL ALSTON
For a team that obviously isn't going to win the first half title in the 910 Major League at Albany Bowl, Diablo Bowling Supply is having a lot to say about who does.
Last week for the second straight time they knocked off the second place team, virtually assuring Merry Jax of the honors.
This time the Diablos picked on Full House 20-15 behind George Schaber's 661 series on counts of 213-233-225 while the league leaders were trimming O & R Vending by the same score with help from Randy Felix's 608 and John Taylor's 602.
The Carousers, now under the banner of Rod's Coffee Shop, moved back into second place after an 18-7 win over Associated Coin Amusements but, with only one week remaining on the first half schedule, their chances of finishing higher are practically nil.
In the Majors' other match Franklin Electronics used Rod Sparks' 638 series to breeze past Desperation, 18-7.
For the 870 Commercial League Bob Mann fired 279 game and 663 series as D & M Body Shop nipped Gibbs Bookkeeping Services 13-12, and Blair Excavators notched another lopsided victory, 21-4 over Team Five on a 619 set by Carl Hendrix.
Barbara Foy registered the highest women's game in any league all season with 247 in the Pacific Stereo circuit. At the same time, her husband, Rod, was giving the Stereos the best men's game at 236.
All in all, it was a great week for the ladies. Barbara Flavin hit a 245 game and 552 series in Ladies Hand-

Athlete of the Week

ALBANY — John Jordon, son of Mr. and Mrs. R.V. Jordon, is the final Athlete of the Year from Albany High School.
The 16-year-old junior is an all-around athlete and participates in wrestling, football and track and has been an outstanding performer in all three sports, according to his coaches.
Listing his preference as Chico State University, he plans on majoring in heavy machinery repair, according to his report. With hunting, fishing and skiing as his hobbies, he has a diversified interest in the outdoors.
Wrestling on the Albany team as a heavyweight, John also was named as the Berkeley Gazette "Prep of the Week" last week, and, according to his coach, Kermit Bankson, he is a hard worker and is highly motivated. He "can go as far as he wants to go," his coach said.
In his second year of football, he has one more year as a defensive tackle for the Albany Cougars. He has been to Texas several times to visit his grandmother and other relatives, he said.

New sky show at SF academy

SAN FRANCISCO — "Planetary Odyssey," a journey through the solar system, is the subject of the new sky show at the Morrison Planetarium at the California Academy of Sciences in Golden Gate Park, running Jan. 5 through April 22.
"Planetary Odyssey" can be seen each Monday through Friday at 2 p.m. and weekends at 12:30, 2 and 3:30 p.m. Evening shows are presented on Wednesday and Thursday at 7:30 p.m.
Admission is \$1.50 for adults and 50c for those 17 and under.
The Morrison Planetarium is located at the home of the Steinhart Aquarium, Watis Hall of Man and the many halls of natural science exhibits, Golden Gate Park.

Comments BY CARY

It looks like Leon Rimov's complaints have finally hit paydirt. The Albany City Council set last Thursday as the day of explanation for Director of Public Works Robert Guletz by Rimov over the past several months.

According to Rimov, Dr. Stephen Kalmar, who is a developer on Albany Hill, has been "getting away with murder" as far as the building code is concerned. Rimov said that changes have been made in the building plans for the building to be erected at 525 Jackson Street. He also said the plans were incomplete and that there were numerous omissions in the plans that should have been noted prior to the issuance of a building permit.

It has been learned that the Executive Session last Thursday was not too productive as far as ironing out the difficulties encountered by the council and Rimov. It is said that the plans were passed in good faith and that the contractor knew the code and would alter the plans to conform as the building was erected. The sad part of this statement is that the actual men who do the work, the carpenters, are not on the site at all times and the men working according to the instructions they are given. If the contractor, it is said, does give the correct interpretation of the code, the building is then built to specifications that should stand up under rigid inspection. If he does not, then, it was said, there is where the difficulties arise. According to Rimov, that is the crux of the matter as it now stands.

When Rimov was ques-

tioned, he said "I am not out to 'get' anyone. The charges that I have a personal vendetta against Mr. Kalmar and Mr. Guletz are not true. All I want to see is that the codes are followed as the rest of us have to follow them."

"I am concerned about the damage that is to be done by shoddy work when heavy rains come. I know there will be trouble on the lower end of the Hill and I don't want to see anyone hurt."

Rimov also said he is concerned over the possibility of a home sliding down the hill because of unstable ground and inadequate footings. Some damage is evident to the layman's eye on some of the buildings in question at the present time.

As a result of the protests of Rimov, a notice was posted on the property at 525 Jackson street by the building department notifying the contractor, Ralph Willis, to stop work immediately on the project. The notice read "you are requested to cease construction immediately 12-12-78. This delay has been ordered by the City Council until a work session can be held." The notice was signed by Robert L. Kimball, Inspector for the Building Department.

The results of the discussion between the City Council, Rimov, Guletz, William E. Haden, City Administrator, and Robert Zweben, City Attorney, should be resolved in the near future, one way or the other, it has been learned.

Until the issues have been resolved, there is to be no construction at 525-535 Jackson street, it was said.

EDITOR:
Dear Sir:
"Albany School System Suffers Lack of Money" reads an item in the Times (Dec. 6). As a bled-white taxpayer, (before Prop. 13) I refuse to get all choked up and sloppy over their sad plight. In reply I give them my grandmother's excellent advice, "Cut your coat to fit your cloth."
Admitted, for those who have been riding "the gravy train" it's rough to have to get down and walk but to experience economy and frugality, (dirty words to the "new generation") should be a part of their continuing education. After all, it is a condition that an infinitely larger group of us than teachers and school boards have had to contend with for lo! these many years.
As for the students a bit of Spartan ethic would do them no harm. Generations of men and women have been educated into useful and meaningful lives without the benefit of present day educational folderols, wall to wall carpeting and all that.
It is not too soon to tighten our collective belts — Jarvis-Gann was just the first snowflake for if our top economists are to be believed the wise will brace themselves for the coming crunch that will have us looking back on these times as the Golden Age.
F.E. WILSON

EDITOR:
Dear Sir:
BART's top pay is not "something over \$70,000," as was charged by newspaper columnist Earl G. Waters. Frank Herringer receives \$68,508/year. A majority of the BART Board set that salary in 1975, Directors Bianco, Glenn, and Allen dissenting. I argued strongly for a \$49,000 cap at the time.
Frank Herringer leaves BART December 31. We are seeking a new General Manager. I think we can find a prime candidate for under \$55 grand. That will help set our whole salary structure right; it certainly is wiser now!
ROBERT S. ALLEN

EDITOR:
Dear Sir:
I wish to thank the following persons for their generosity in donating the Christmas Tree for the lobby of City Hall:
Bob Wilson, Flowerland Mayor Lewis Howell Councilman Louis George Councilman Bill Lewis Councilman Bob Luoma Jack Dempster
Without the generosity of the above, there would be no tree at City Hall this year, due to lack of funds in the City budget.
PATRICIA A. DEMPSTER

EDITOR:
Dear Sir:
Contrary to opinions expressed otherwise, I find the "Police Blotter," "That Siren You Heard" and "Comments by Cary" a definite improvement to the make up of the Times.
Thank you for giving the residents of Albany a closer look at what is happening around our City.
